SKILLS

- Mobile App Development: React Native
- Frontend Development: HTML, CSS, JavaScript
- Backend Development: Node.js
- Database Management: MongoDB
- Design Tools: Sketch, Figma
- Analytical Skills: Problem-solving, Attention to Detail

LANGUAGES

- English | Elementary
- Hebrew | Intermediate
- Arabic | Native

EXPERIENCE

FULL STACK DEVELOPER

2023 - 2024

Code.Zone | Tira

- I developed a comprehensive graduation project during my studies at Code Zone . This project involved creating a full-stack mobile application using React and React Native. I was responsible for both the frontend and backend development, including integrating APIs to ensure a seamless user experience across different platforms. This project allowed me to apply my skills in JavaScript, TypeScript, and Node.js, and provided me with practical experience in component-based architecture and state management.

EDUCATION

FULLSTACK DEVELOPER

2022 - 2024

Code Zone | Tira

PROJECTS

I have worked on several innovative projects, covering a variety of domains including web and mobile applications

These projects helped me gain hands-on experience in both frontend and backend development, allowing me to develop solutions that are not only functional but also user-friendly

I utilized a wide range of technologies such as React, React Native, Node.js, and MongoDB, ensuring that each project was built with scalability and maintainability in mind

One of my key strengths is creating intuitive user interfaces, ensuring that the end user has a seamless experience across different platforms

In addition to technical development, I also focused on integrating APIs and managing databases to create fully functioning applications

Each project posed unique challenges, such as ensuring real-time data synchronization, optimizing performance, and maintaining security

These challenges helped me grow as a developer, enhancing my problem-solving skills and my ability to work efficiently under pressure

All details of these projects, including the technologies used, key features, and challenges I faced, can be found in my personal portfolio
